\$834,339 REFUND TO COUNTY IN BOND BILL

By REESE TURNER
Representative, Milam County

The County Road Bond Assumption Bill, already passed the House of Representatives and now pending in the Senate, which proposes to distribute among the counties of Texas the money accumulated in the County Road Indebtedness Fund, will, if enacted extend benefits to Milam County over a period of twenty-five years estimated at \$834,339, and will afford an opportunity for lowering ad valorem taxes levied for the purpose of servicing county road bonds.

Introduced jointly by Representatives Tarwater and Petsch, the pending bill is a substitute for the original County Judges Bill, so-called because it had the endorsement of the County Judges Association of Texas. However, the measure was amended in such a manner on the floor of the House that it is almost identical with the County Judges Bill except with respect to the provision for allocation of funds. The share of Milam County was raised from an estimated \$468,695 in the original bill to an estimated \$834,339. Of this amount \$40,834 is in payment of road bond obligations originally contracted by Milam County and later assumed by the State, on which the State has defaulted.

The Tarwater-Petsch plan was the subject of hot debate in the House for several days. However, after the differences in opinion with respect to method of allocation and jurisdiction over expenditure of the funds were ironed out by the adoption of numerous amendments, the bill was finally passed by the overwhelming vote of 108 to 12.

The first road bond assumption act, passed in 1932, set aside one-

fourth of the state gasoline tax for the purpose of paying indebtedness on county roads which subsequently became state designated highways. Since 1937, owing to its increasing productivity, one-fourth of the annual yield of the gasoline tax has exceeded the total annual payments of principal and interest on these road bonds by about \$2,000,000. At present there is an accumulated surplus of approximately \$7,000,000 in the County Road Indebtedness Fund. This surplus, if not put to use, will continue to grow with increasing rapidity as the county bonds are retired.

The pending bill re-enacts the present law, makes eligible for participation county roads which were constructed since 1932 and have subsequently become a part of the state system, and provides for the payment of county road bonds which the state assumed and defaulted. It further provides that the surplus which will continue to accrue in the road bond fund after these obligations are met shall be distributed among the counties of Texas to be used by them either to retire lateral road bonds, or to construct new lateral roads, or for both purposes.

The distribution of this surplus is to be made on the following basis: 40% on lateral road mileage, 30% on automobile registration, 20% on population, and 10% on area. This basis of allocation gives a decided advantage to counties like Milam that have pushed forward in the construction of local roads.

The expenditure of this revenue is entrusted to the commissioners' court of the counties, this provision being based on the fact that the commissioners are better informed than anyone else as to the particular needs of their respective counties.

SHERIFF'S OFFICE WILL BE MOVED

Office of the sheriff will be located on the second floor of the court house in the quarters now occupied by the county superintendent.

Office of the county superintendent will be located on the ground floor of the court house in the quarters now occupied by the sheriff's department.

This decision was re-affirmed by the commissioner's court in session here Thursday at which time a petition widely circulated throughout the county and bearing hundreds of signatures was presented in protest over the exchange of these two departments. The court declined to retract its former decision and when the court house is completed the office of the sheriff will be located adjacent to the court room and moved from its present location where for many years it has been accessible to the people on the first floor.

Convenience for school patrons who transact business with the office of the county superintendent was cited by the court as one reason why the change should be made. Ready access to the office of the sheriff will be had by court officials under the new arrangement. When the court decided sometime ago to exchange the position of these offices, Sheriff Max Kennedy and County Superintendent Guy T. Newton both appeared before the commissioners' court and agreed that the exchange would be mutually beneficial.

Green & Boedeker Store Re-opened In Cameron

Green & Boedeker stores have been re-opened for business in the building formerly occupied by the Lyon Dry Goods Company following the disastrous fire of Friday afternoon, which destroyed the business operated in the Chambers building across from the federal building.

The fire which for a time threatened adjoining property, originated on the ground floor of the building when a gasoline stove exploded in a cream testing room. Fire fighting equipment from Rockdale with seventeen men reached the city within twenty-one minutes after the alarm.

Leland Green, Sr., said the loss would be approximately \$16,000 partly covered by insurance. Owners and employees met in Mr. Green's home Friday night and made plans for opening the store on Monday. Fixtures and merchandise were moved into the new location on Saturday.

Negro Girl Under Bond in Stabbing Of White Boy Here

Geraldine Carter, 18 year old negro girl was placed under arrest here late Tuesday afternoon by Sheriff R. M. Kennedy and Constable B. F. Bailey in connection with the near fatal stabbing of Woodrow Wilson, former high school student here and son of Mr. and Mrs. Edgar Wilson.

The stabbing occurred Saturday night on the side walk near the Bluebonnet Cafe. Following the girl's arrest she made a statement to officers claiming that she stabbed Wilson after he had bumped into her while passing along the side walk. The girl said in her statement that when Wilson collided with her she dropped her handkerchief and some chewing gum and when she expressed indignation over the treatment

Although remodeling of the building represents extinction of its former famous type of architecture, there is an advantage in that there is more safety from fire hazards, and other dangers represented by the old tower. The building is more sanitary and attractive inside and repair costs will be lowered to a minimum.

Work was begun on reconstruction November 25, 1938 under a contract to McClellan-Brown-McClellan of Waco with the plans and specifications being drawn by J. E. Johnson, local architect.

A major part of the work was removing the old tower, which though once a famous type of architecture, is fast becoming obsolete. The

WATKINS SURRENDERS TO ROCKDALE MAYOR

Jack Watkins, convicted habitual criminal, under life prison sentence, surrendered to Mayor E. A. Camp of Rockdale late Tuesday afternoon.

Officers throughout Central Texas had conducted an intensive search for Watkins who escaped from the county jail at Madisonville where he was convicted on May 2 and given life sentence. He escaped jail on May 6 and when he surrendered to Mayor Camp in Rockdale late Tuesday said that he was frightened over the prospect of being shot by officers who were on his trail.

A 1939 Chevrolet car was stolen by Watkins from a street in Anderson, county seat of Grimes county. The stolen car was found parked at the Primitive Baptist church, known as the Little Flock Congregation church, two miles west of .Maysfield on the highway by Deputies Dan Gann and Clarence McCall.

Watkins amassed a criminal record by twice being convicted in Milam county on burglary charges. In 1928 he was given a prison term and again in 1935 he was charged in 11 indictments.

JONES PRAIRIE H. D. CLUB

"No other one thing contributes to the earth's beauty, or is so universally useful as trees" said Mrs. Dick Young at the Home Demonstration Club, which met with Mrs. J. A. Jamison, May 2.

There are many historical trees and Texas is fortunate in possessing a few of these, which are cared for by towns, Federated Clubs or individuals.

Some of these trees are located at Crockett, Marshall, Columbus, Brazoria, Rockport, Austin and the cottonwoods at the Alamo in San Antonio. It is well worth anyone's time to study the history of these trees.

Mrs. T. B. Stidham discussed the origin and development of Texas Roadside Parks, and how they have contributed much to the comfort and pleasure of tourists.

Highways have assumed national importance, offering routes from coast to coast. Our highways are truly the "Front Yard of the the South," so we

conceived the idea of improving them in order that travelers might be better impressed with our country, and enjoy the natural beauties along the roadside.

We are justly proud of what has been done in the field of highway beautification. Texas leads the country in providing roadside parks, having 375 large parks totaling 940 acres with 311 smaller "turn-out" parks. The movement is growing each year.

Miss Ethel McKinney gave the Council report, and Mrs. S. S. Hickman gave a report on the educational exhibit.

Mrs. Jamison, assisted by Miss Hallie Jamison served delicious cream and cake to 14 members and the following visitors: Mesdames Bailey Jones of Cameron, Clarence Crook, Carlton Crook, Misses Evelyn and Dorothy Jane Harrell.

The next meeting will be with Mrs. A. H. Patzke, May 16.

HOYTE D. H. CLUB

The Hoyte Home Demonstration club met in the home of its president, Mrs. James Elrod, Wednesday, May 3.

Miss Porter met with the club and gave a demonstration on weighing grading and candling eggs. She stressed the fact that dirty eggs should never be washed, because in washing, a protective substance on the shell is taken off and the egg deteriorates quicker. Instead of washing unclean eggs they should be cleaned with a wire brush.

Refreshments of sandwiches, cookies and grape juice was served to 9 members.

The club will meet May 25 in the home of Mrs. W. D. Faver.

Geo. T. Graves was elected to the County Soil Conservation Advisory Committee for Commissioners' Precinct 2, in an election held here last week.

Headache, Bad Breath
Tell of More to Come

Just as Paul Revere's famous ride warned of the Redcoats' coming, so Nature's messengers — headaches, biliousness, bad breath—often warn of faulty elimination.

Neglecting these signs may cause a host of constipation's discomforts: sour stomach, belching; no appetite or energy; mental dullness. It's so easy to wake up your lazy insides. Just take spicy, all vegetable BLACK-DRAUGHT. Its unusual help comes from its principal ingredient—an intestinal tonic-laxative which imparts tone to lazy bowel muscles.

Millions of packages used testify to BLACK-DRAUGHT'S merit. Try it.

MRS. HATTIE H. DAVIS
BURIED IN CAMERON

Mrs. Hattie H. Davis, 60 year old resident of Cameron, died at the home of her son, Vernon Collins here at 1 a. m. Thursday, May 11.

Mrs. Davis had been in declining health for a number of years and for sometime had made her home in Cameron with her son.

Mrs. Davis was born on Mill Creek in Indian Territory in 1879, and grew to womanhood in Oklahoma where in 1896 she was married to Ben Collins who later became Deputy United States Marshal. To them three children were born two of whom now survive. They are Dan Collins of Kilgore, former advertising salesman for the Cameron Herald and Vernon Collins of Cameron, with the Mid-American Life Insurance Company. One child died in infancy. An adopted son, Berry Collins of Fort Worth also survives. One nephew, Ben Heald whom she reared and educated, survives along with one sister, Mrs. W. R. Ingram of Healdton, Okla.

In addition to the above relatives two brothers, Will Heald of Healdton, Oklahoma and Ben Heald, Sr., of La Juanta, Colorado, survive.

Her first husband, Ben Collins died in 1906. In 1913, she was married to Henry Davis. They moved to Cameron and lived here for a number of years. Mr. Davis was an oil operator and had holdings in a number of Texas fields, principally Luling pool. Mr. Davis died several years ago after a long period of illness. The family is well known in Cameron.

Dan Collins, a surviving son, is the husband of the former Miss Eugenia Wallace, daughter of Mr. and Mrs. E. A. Wallace of Cameron.

Funeral services were held in the First Methodist church at 4 o'clock Thursday afternoon, May 11, 1939, with Rev. A. J. McCary, pastor conducting the funeral. The Leland Green Funeral Home directed arrangements and interment was made in Oak Hill cemetery.

Breath Bad, Logy?
You May Need This

Just as the lighthouse flashes a friendly warning to sailors, so Nature sends out headaches, bad breath, biliousness, which often warn of constipation.

Too many misunderstand or neglect those symptoms and thereby may invite a host of constipation's other discomforts: sour stomach, belching, loss of appetite or energy.

Be wise. Take spicy, all vegetable BLACK-DRAUGHT tonight by simple directions and clear your bowels gently, promptly, thoroughly. This intestinal tonic-laxative helps give tone to lazy bowels.

Its long life and popularity testify to BLACK-DRAUGHT'S merit.

CHRISTIAN SCIENCE SERVICES

"Soul and Body" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, May 21.

The Golden Text is: "If thou draw out thy soul to the hungry, and satisfy the afflicted soul; then shall thy light rise in obscurity, and thy darkness be as noon day" (Isaiah 58:10.)

Among the citations which comprise the Lesson Sermon, is the following from the Bible: "Ye are all the children of light, and the children of the day: we are not of the night, nor of darkness" (I Thessalonians 5:5.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "As light destroys darkness and in the place of darkness all is light, so (in absolute Science) Soul, or God, is the only truth-giver to man" (page 72.)

MIGHTY HAPPY
to hear from you

THAT'S the reason why we put Service Check Cards in every Humble Service Station. Humble customers are invited to use these cards to tell us what they think of the service rendered, whether it's good, bad, or indifferent, which particular items please or displease. You'd be surprised at how many worthwhile suggestions come to us from customers who use these cards. . . And they make it possible for us to give you, through Humble Service Stations, the kind of service you want. . . In other words, we carry on a continuous study of what motorists need and want to make driving an automobile more pleasant, and then we try to give it to them. . . Do we succeed? . . . The check cards say we do, and their opinion is verified by the increasing number of Texas motorists who make it a regular practice to stop for service where they see the Humble sign. . . Seeing is believing, so we suggest that the next time your car needs a tankful of gasoline, you stop at the nearest Humble Service Station and check the service for yourself. . . Then, if you care to, fill out one of the Service Check Cards you find and send it to us (no postage necessary). It will make us mighty happy to hear from you.

"Nazi Spy" Film Opening at Cameron Sunday

"Confessions of a Nazi Spy," the Warner Bros. film dealing with Nazi espionage activities in this country is scheduled to open at the Cameron Theatre on Sunday. This is the much-awaited film which has been a subject of wide interest ever since Warner Bros. started the production of it, the first really important motion picture document of Nazi espionage activities in America. Mr. Swift manager of the Cameron Theatre, made arrangements with the producers for showing "Confessions of a Nazi Spy" in this city because he felt that his theatre would not only render a patriotic service in showing a film of this kind, but also because he felt it would make Americans more cognizant of the unbelievable spy menace which exists in our democracy.

Anatole Litvak directed the film, which stars Edward G. Robinson, and a brilliant supporting cast including Paul Lukas, Francis Lederer, Lya Lys—famous European film beauty making her American debut—and many others.

Although the particular characters and events are fictional, the espionage methods revealed in the film are based on the facts brought out in the recent trials in New York, Los Angeles and the Panama Canal zone. Leon G. Turrou, former F. B.

I. agent, who acted as technical advisor on the Warner Bros. photoplay, smashed one of the Nazi spy rings, and his intimate knowledge of the manner in which the spies operate have given reality and authenticity to the production.

"Confessions of a Nazi Spy" is a sensational picture in the true sense of the word, because it is a vivid depiction of the menacing under-cover activities fostered in this country by the most dangerous of all the enemies of our democratic institutions—the Nazi regime in Germany. In making the picture, Warner Bros. have used all the facilities at their command to bring the danger of these activities out into the open, and although the story of the film is fictional, there can be no doubt that the dangers are very real.

Edward G. Robinson portrays the G-Man who breaks the spy ring and brings four of the members to trial and conviction. Paul Lukas plays the doctor who heads the spy ring, and Lederer portrays a bungling Nazi informer. Lya Lys, whose exquisite blonde beauty and dramatic ability make her one of the top European stars, makes her American film debut in "Confessions of a Nazi Spy."

Debs Hensley, who is a student at A & M College was among the many college boys who came to Cameron for the annual junior-senior dance.

Users by thousands are eager to tell how CARDUI has given them appetite; helped them gain strength; has thus relieved them of the symptoms of functional dysmenorrhea due to malnutrition. Many also say that, when symptoms indicate the need, CARDUI in larger doses helps "at the time" to soothe pain.

clock installed at considerable cost when the court house was erected in 1892, was also removed with the tower, over the protest of many Milam county citizens. Another timing system will be installed however under a separate contract after the reconstruction work is completed.

A new re-inforced concrete slab roof was placed at the top of the old stone work, raising the roof approximately five feet. All ceilings in the building were lowered from eighteen inches to two feet and finished with plaster.

The walls throughout have been repainted in ivory and the wood-work has been refinished in oak. New oak flooring has been laid in all of the offices and all corridors and stair landings are finished in a surface of terrazzo floor covering in grey flecking. In the center of the floor directly in view of the four outside entrances is the letter M in white outlined in bronze representative of Milam. Corridor walls are finished in ivory with a wide black stripe outlining the direction and adding a decorative touch.

More modernistic work was done in the district court room than any other portion of the court house. The main ceiling of the room as well as the ceiling of the balcony was finished in acoustical plaster to make it sound proof. The walls were refinished in ivory as were the walls of the remainder of the building. Three coats of semi-gloss ivory paint were put on the wainscot. The court room with the newly designed jury box and witness stand

and a raised platform at the rear together with the new sky light contrast sharply to the old court room.

It is estimated that work under the contract will be 100 per cent finished Saturday, May 20. Other work to be finished this week is cleaning up the building and installing jury chairs which have been ordered for delivery this week.

The contract to Monday of this week showed a total outlay of \$32,330. Forty-five per cent of this amount or \$14,742 has been contributed through the Public Works Administration. F. R. Cromwell has represented the Public Works Administration on this project as well as other similar projects in the county.

Another contract will be let for the installation of a master clock with light controls in the district court room to control the four clocks to be installed on four sides of the court house.

When the court house is completed the total expenditure will be approximately \$33,000. Forty-five per cent of this amount is represented by a government grant through the Public Works Administration. The balance \$18,258 will be paid by the county. The original PWA grant called for \$11,650 but as the work progressed it was found more money was needed than first anticipated and the grant was raised to \$14,742.

Stabbing

she said Wilson cursed her and in a fit of rage she stabbed him.

After the stabbing the girl became frightened and ran to the negro quarters of the city. Her identity was unknown until Tuesday when she was placed under arrest. Wilson after the stabbing walked into the Bluebonnet Cafe and did not know that he had been severely hurt. Feeling a burning sensation near his left shoulder blade, he soon discovered he was bleeding internally and when taken to a local hospital it was found the left lung had been punctured by the knife blade. Physicians said although his condition was critical Sunday and Monday he will recover.
